### REMINDER

At the Presidents night Dinner Ross asked us to keep cork for Motor Neurone Disease Association of Victoria.

Which Country produces nearly all the worlds supply of Cork?

Answer

Portugal produces about half the world output of commercial cork, and its exports over recent years have accounted for around 70 percent of world trade.

## **FROM THE EDITOR**

The Bulletin belongs to all Inverloch Rotarians and should be used by ALL the Members and ESPECIALLY the Board Members to communicate, inform, and remind Rotarians.

I am also always struggling to keep up a supply of clean jokes of various sizes to fill any blank space that I cannot fill with the good articles.

I hate typing so preference will be given to articles via email, CD, Memory stick, or floppy disk (I still have one on my current computer). If articles need to be typed please have them to me by Sunday, and only urgent items will be accepted as late as Tuesday.

Articles can be left in the mail box of Unit 9 – 5 Freda St.  
or emailed to [beng@bigpond.com.au](mailto:beng@bigpond.com.au).

I also enjoy finding information on the net and from my browsing have found that Rotary information is very abundant on the net. I will research and incorporate any topic that members would like to read in the Bulletin.

## **ABOUT ROTARACT**

**Rotaract is a Rotary-sponsored service club for young men and women ages 18 to 30. Rotaract clubs are usually community-based or university-based and are sponsored by a local Rotary club making them true "partners in service" and key members of the Rotary family.**

**Through the Rotaract program, young adults not only augment their knowledge and skills, but they also address the physical and social needs of their communities while promoting international understanding and peace through a framework of friendship and service.**

**All Rotaract efforts begin at the local grassroots level and Rotaract clubs have access to many of the resources of Rotary International and The Rotary Foundation.**

**As one of the most significant and fastest-growing programs of Rotary service, with more than 8,000 Rotaract clubs in some 155 countries and geographic areas, Rotaract has become a worldwide phenomenon.**

**Rotaractors also often spearhead the formation of Interact clubs and participate in Rotary Youth Leadership Awards. Rotaractors also can go on to become Ambassadorial Scholars or Group Study Exchange team members.**

**For more information about Rotaract in your area, contact your local Rotary club. Visit the Rotaract Discussion Forum to view or participate in conversations about club projects and activities with Rotaractors from around the world.**

**CONGRATULATIONS TO ALL THE KIDS WHO WERE BORN IN THE  
1940'S, 50'S, 60'S AND 70'S !!**

**First, we survived being born to mothers who smoked and/or drank while they carried us.  
They took aspirin, ate blue cheese dressing, tuna from a tin, and didn't get tested for diabetes.**

**As children, we would ride in cars with no seat belts or air bags.**

**Riding in the back of a van - loose - was always great fun.**

**We drank water from the garden hosepipe and NOT from a bottle.**

**We shared one soft drink with four friends, from one bottle and NO ONE actually died from this.**

**We ate cakes, white bread and real butter and drank pop with sugar in it, but we weren't  
overweight because.....**

**WE WERE ALWAYS OUTSIDE PLAYING!!**

**We would leave home in the morning and play all day, as long as we were back when the  
streetlights came on.**

**No one was able to reach us all day. And we were O.K.**

**We would spend hours building our go-carts out of scraps and then ride down the hill, only to  
find out we forgot the brakes. After running into the bushes a few times, we learned to solve the  
problem .**

**We did not have Playstations, Nintendo's, X-boxes, no video games at all, no 99 channels on cable,  
no video tape movies, no surround sound, no cell phones, no text messaging, no personal  
computers, no Internet or Internet chat rooms.....WE HAD FRIENDS and we went outside and  
found them!**

**We fell out of trees, got cut, broke bones and teeth and there were no lawsuits from these  
accidents .**

**We played with worms and mud pies made from dirt, and the worms did not live in us forever.**

**We made up games with sticks and tennis balls and although we were told it would happen, we  
did not poke out any eyes.**

**We rode bikes or walked to a friend's house and knocked on the door or rang the bell, or just  
yelled for them!**

**Local teams had tryouts and not everyone made the team. Those who didn't had to learn to deal  
with disappointment. Imagine that!!**

**The idea of a parent bailing us out if we broke the law was unheard of. They actually sided with  
the law!**

**This generation has produced some of the best risk-takers, problem solvers and inventors ever!**

**The past 50 years have been an explosion of innovation and new ideas.**

**We had freedom, failure, success and responsibility, and we learned**

**HOW TO ---- DEAL WITH IT ALL!**

**And YOU are one of them! CONGRATULATIONS!**

**You might want to share this with others who have had the luck to grow up as kids, before the  
lawyers and the government regulated our lives for our own good. And while you are at it, send  
this it to your kids so they will know how brave their parents were.**

**Kind of makes you want to run through the house with scissors, doesn't it?! PS -The BIG type is  
because your eyes are shot at your age because you didn't wear sunglasses as a child and probably  
did other things that make you blind.**
